CONTENTS.

	PAGE
SECTION I. ANALYSIS OF THE GENERAL FUND INCOME AND EXPENDITURE OF 159 HOSPITALS ..	9
SECTION II. STATISTICS OF BED ACCOMMODATION, PATIENTS AND COST OF WORKING OF 159 HOSPITALS	45

PREFATORY NOTE.

The following Summary has been prepared by the King's Fund from the published accounts for 1947 of 159 London Hospitals and from returns made by these Hospitals to the Fund.

The Annual Statistical Summary has served many useful purposes and one of its main objects has been to provide each Hospital with the figures of other Hospitals as an aid to financial control.

A new grouping was introduced in 1943 and all Hospitals are now arranged in groups, so that comparisons may be made between Hospitals the work of which is more or less similar.

Section I summarises under their main heads and sub-heads the various items of Income and of Expenditure, as set out on page 4, and Section II, statistics of bed accommodation and patients.

SPECIAL NOTES.

Pay Beds.—The separation of Pay Beds (and the Income and Expenditure in connection therewith) from General Ward Beds, was commenced in 1939 (1938 figures), but was then suspended on account of the effect of war and post-war conditions on Pay Bed accommodation and use.

Costs.—Owing to the disruption of the work of the Hospitals during the War, it was not practicable to analyse costs under each main heading of Ordinary Expenditure for In- and Out-patients and Table II of Section II was omitted for the years 1940 (1939 figures) to 1946 (1945 figures). The publication of costs was resumed in the Annual Reports of the Hospitals for the year 1946 and Table II is again included in this Summary.

Comparative Figures.—Group Totals and Averages for the previous year and for the last complete pre-war year (1938) have been included, to show the effect of the changed conditions on Hospital Finance, Work and Costs.

Headings in the Section.	Items in the Account.
Voluntary Gifts—	{ Annual Subscriptions, Donations, Collections, Entertainments, Gifts in kind, Other Voluntary Gifts.
Subscriptions, Donations, etc.	
Central Funds	{ King Edward's Hospital Fund, Hospital Sunday Fund.
Receipts on Account of Services Rendered—

* These figures are included in Col. (3) and affect the average duration in Col. (5).

** These figures include confinements and attendances thereon at patients' homes as well as Out-patients and their attendances at the Hospitals. A case of confinement at the patient's home naturally demands many more attendances than are required by an Out-patient seeking advice at an Ante-Natal or Infant Welfare Clinic. The relative proportion of the two classes of cases varies greatly between the different Hospitals and largely accounts for the difference in the average number of attendances per Out-patient in Col. (8).

Note.—The London Hospital took over the management of Queen Mary's Maternity Home, Hampstead (Complement

—MATERNITY.
