P R E F A C E

The Directory was first published in the autumn of 1948. As a result of reports of its usefulness received from Almoners and Health Workers, the Convalescent Homes Committee of King Edward's Hospital Fund decided to make it an annual publication.

The decision whether to include a particular Home or not lies at the discretion of the Committee. Of the Homes operating outside the National Health Service, nearly all are visited by one or more members of the Committee prior to their acceptance for the Directory, and subsequently, if possible, every year. Homes within the National Health Service have also been visited, by courtesy of Regional Hospital Boards. Only Homes which are prepared to admit patients residing in the London area are recorded. Until recently only Voluntary or National Health Service Homes have been included, but now it has been decided to include a few private Homes that have contractual arrangements with Regional Hospital Boards.

Homes which are situated outside the borders of the four Metropolitan Hospital Regions have been placed in Part II, few of them having been visited by members of the Committee. Wherever they may be, all Homes in the Directory are for patients for whom convalescence or a recuperative holiday has been recommended by a doctor.

January, 1955.

EXPLANATORY NOTE

PART I of the Directory contains Homes within the four Metropolitan Hospital Regions, arranged alphabetically according to the name of the town or village in which the Home is situated. Where there is more than one Home in a particular town — such as Broadstairs — they are arranged in alphabetical order according to the names of the Homes.

When it is desired to select a Home in a particular district, reference should first be made to the GEOGRAPHICAL INDEX of Homes on pages xiii to xviii. Private Homes having contractual arrangements with Hospital Boards are printed in italics in this list.

PART II provides similar information about Homes situated outside the four Metropolitan Hospital Regions. The page containing details of each Home shows the Hospital Region in which the Home is situated at the top left hand corner and at the top right hand corner the words: "National Health Service," "Contractual Arrangements," "Special School" or "Independent." Patients at the first two will normally be a charge to the Regional Hospital Board, those at Special Schools are maintained by Local Educational Authorities and those at Independent Homes are frequently approved by Local Health Authorities under the recuperative holiday schemes.

ALPHABETICAL INDEX on pages xix to xxii is an alphabetical list of all Homes. The prefix letters to each Home show whether men, women or children are accepted and whether the following facilities are provided: — breakfast in bed, bed cases, ground floor rooms, long term stay.

CLASSIFIED INDEX on pages xxiii to xxxi contains lists of Homes showing the treatments they provide and medical conditions accepted. It also lists Homes taking particular social or occupational groups.

CHILDREN'S INDEX on pages xxxii to xxxiii contains a list of all the children's Homes showing the age groups accepted.

NORMAL EXCLUSIONS — Although the types of cases not admissible vary to a certain degree as between Homes, it can normally be taken that Pulmonary Tuberculosis, Pregnancy (after the fifth month), Mental Cases, Epilepsy, Incurable, Infectious and Contagious Diseases and usually Skin Disease, Open Sores and Wounds are not accepted, unless otherwise stated. In trying to decide whether a patient is eligible or not for any given Home, a study of the information given under TREATMENT and STAFF will give a good idea as to the type of work undertaken.
